LATEST EDITION A GENERAL TRUCE.

The Burlington Officials Hold Back on Account of Election Day.

Michigan Central Men Strike This Morning But Return to Work.

A Short-Lived Strike—The Alleged Great Conspiracy to Force a General Boycott on "Q." Freight—Conservative Engineers Advising With Chief Arthur—The Strikers Denounced by the Order of Railway Conductors—The Situation at Milwaukee.

CHICAGO, Ill., April 3.—The general advisory committee of the Brotherhood of Locomotive Engineers held a meeting last night for the purpose of considering what steps were necessary to prevent the radicals pursuing a course that it is feared will end in the disruption of the Brotherhood. The conservative members have become greatly alarmed over the lawless actions of the switchmen, as the blame for the actions of the later is placed on the shoulders of the engineers. The switchmen, aided by the radicals in the Brotherhood, it is claimed, have assumed the management of the strike and the officers of the Brotherhood are no longer consulted as to the steps necessary to be taken. Most of the members of the committee strongly urged the adoption of a resolution declaring that the Brotherhood of Engineers has nothing in common with the switchmen and is no way responsible for their action. Mr. Hoge, Chairman of the Burlington Grievance Committee, and two or three others were the only ones who opposed such action, claiming that the aid of the switchmen was needed to help the engineers to gain the fight against the Burlington. They asked that the engineers and the switchmen use all the means at their command in boycotting every line that insisted upon handling Burlington freight. After a long and animated discussion it was decided that the Advisory Committee depart at once for Cleveland and consult with Chief Arthur as to the best course to be pursued hereafter.

THE ROCK ISLAND'S ATTITUDE. Referring to the notice served by the Rock Island on the Burlington that there shall be no further exchange of traffic, a morning paper says: The traffic of the Rock Island has increased 20 per cent since the inauguration of the Burlington strike and is still on the up-grade. The company is prepared to enforce the announcement made to the "Q." yesterday. At a point where there are connecting tracks, of which the "Q." could enter the Rock Island yards, the latter has placed locks on the switches, and given orders to their switchmen to allow no "Q." trains in. The men are greatly pleased with this state of affairs. The cardinal virtue of the Rock Island's position is that announced by General Manager St. John, that they intend to avoid trying up their entire system, and causing inconvenience and damage to the people on their line by refusing the freight of the "Q." As a result of yesterday's action the Burlington has insisted its complaint against the Rock Island in the United States Circuit Court. Judge Graham will hear arguments to-morrow.

The Chicago, Milwaukee & St. Paul strikers held a meeting last night, lasting until a late hour. The Chairman of their Grievance Committee made a speech, in which he declared that the road was now practically shut up. He pointed out that 9,000 employees had already been laid off as a proof of this assertion. He advised the men to stand firm, and predicted that every road in the city would be tied up inside of forty-eight hours. Similar speeches were made by other speakers, and a resolution in favor of a continuation of the strike was carried with a yell. An unsuccessful effort was made to induce the passenger engineers and firemen to declare on the side of the switchmen and firemen. The representatives present said no just reason had been presented why they should. The strike, it is stated, has already seriously crippled the St. Paul road. The through passenger trains are running on time, but with very few occupants. The Northwestern trains are, on the contrary, crowded in an unusual manner. They are crowded in the morning, and will be tomorrow the St. Paul will join the Burlington in its attempt to tie up the right upon the city. Later in the day transfers will be placed upon the tracks of the Chicago, Burlington & Quincy, Chicago & North Western, Rock Island, Chicago & Eastern Illinois, Chicago & Atlantic, Michigan Central and Illinois & Mississippi. The strikers say they have positive assurances that the Northwestern yardmen will strike rather than touch Burlington traffic if it is some of the Northwestern employees say the road has so much freight of its own that it could not touch Burlington traffic if it was shut up.

THE MICHIGAN CENTRAL TIED UP. Not a wheel has turned in the Michigan Central yards since 7 o'clock this morning, and while no strike has been declared, the end of the road at least, is for the present completely tied up, engineers, firemen and switchmen, all having deserted their posts. The officials will not admit that there is a strike, but simply say that they are doing no work to-day. It is learned that a committee of brotherhood engineers are here from Jackson, Mich., who are earnestly opposed to a strike. M. L. Homestead, who, with Superintendent Brown is managing the affair for the company, said: "We intend to give the men as much grace as possible. At 7 o'clock this morning Mr. Brown and myself were here ready to carry out the programme announced yesterday; that is to say, see that all cars received by the company were handled without any discrimination, or disclaimer of the men who refused. Just as we were proceeding to do this a delegation of our road engineers arrived at our office at 7:30 a.m. They had a few moments previous arrived from Jackson, Mich., where they had been deputized by the Michigan Central men on the Michigan Central to come here and endeavor to arrange matters satisfactorily. They said they were at once called to a meeting of our yard employees who were objecting to handling Burlington freight, and urged that all action be in the meantime suspended. As a matter of courtesy to our old employees, we have decided to suspend the strike for to-day. They will be given ample time, of course."

"Well, until noon." "The statement that no work was done in the yards after 7 a.m. is explained by the company's representatives, does not mean that the Michigan Central men on the Michigan Central were interfered with. All passenger trains this morning arrived and departed promptly on time as usual. The strike was confined to the switch engineers, firemen and switchmen in the local freight yards of the company. A GENERAL CONSPIRACY. The Chicago Press this morning, summing up the situation, says: "The existence of a

**A DEMOCRATIC BANQUET**

Be Given by the Vest Club at the Close of the Convention.

The Vest Democratic Club will meet to-morrow evening at Parlor 23 of the Lindell

quet which will be given by the club at close of the National Democratic Convention next June.

The meeting of the Handicriffs Association on Wednesday evening was a quiet affair. National committeeman J. G. Frasier, who will be expected to wear all the emblems of the various democratic orders during the June Sanhedrim, was elected a member of the association, and was assigned a place in the advance guard for the parade.

Tomorrow evening the Democratic City committee will meet at their rooms, north-

committee which was appointed to con-  
with the sub-State Committee concerning  
of the poli-books had no done any  
s towards settling the question. They  
is not yet met the State sub-Committee.

"T. T. Williams"

The designs of the Spring goods have made their impression. Your fancy is captured. More than that. Half our work as storekeepers is accomplished. The shine in your eyes says that much.

We know what you'll say. "Wanamaker's are brimming over with enthusiasm." For a good reason we are. You're back of it.

It only remains to make the cost of the goods attr-

Pattern after pattern. Stripes, plaids, checks, mixtures. Art has nestled on

the weaver's fingers. You'll have the happy opportunity to choose which you like best. That's a different thing from sifting out which you don't like. We have put both style and stability into the-making-up.

---

Silk-lined Spring Oversacks, silk-faced, plain. You'll know the luxurious ones by the price. Make a distinction between luxury and style. We pay you no extravagant compliment in saying you'll accept any

Coats we have for style.

We'll say the same for  
our prices.

**SONGS OF SPRING**  
LISTEN TO GLAD TIDINGS.  
What does the raindrop sing as it spatters,  
on the shining window pane?

Showing music as each bubble scatters?  
Winter is going, spring coming again;  
I know a bird who was yesterday telling  
Glorious news to his mate in the tree,  
Down by the orchard tree buds are swelling,  
On the meadow there wanders a bee.  
Out in the forest where brown leaves were lying  
Shivering and shrinking in nook and cold,  
Would you believe it, a weak voice is trying  
To sing of a crocus deep under the mould!

Changes are coming with sunshine to town;  
Do not forget this, for, oh! what a pity  
To let summer and your house all upside down.  
Learn from the bees, the birds and the flowers  
How to renew all the olden delights;  
Be ready to breathe in the sweet balmy hours

The clover, new-grown, in the pots, ~~arranges~~  
 On of the house take the old carpet, beaten,  
 Furnish a fresh, as the season will do.  
 Take out the old weather-worn and moth-eaten,  
 Put in the things you require, but new.  
 It is cheapest, at last; at expenses don't stickle,  
 For musty old furniture breeds ill to man;  
 Go with the wise to your good friend, McSweeney's,  
 And fill it up your new improvement plan;  
 At his best gasoline stove don't forget them  
 Pictures, wall brackets and mirror and curtain.

For cheaper is all this new furnishing than you could believe possible, as with this plan, the boon of the age, you simply fivest each week in the best ank on earth—your home.
